

## DISTRICT COURT (Third District : Salt Lake County) [1688]

### EXHIBITS, 1899-1959; 1972.

2.1 cu. ft.

**DESCRIPTION:** This series contains exhibits filed as evidence in various court cases brought before the Third District Court. Most of the court cases documented in these records are civil cases, but exhibits from a few criminal and probate cases are included as well. The items found in this series do not necessarily include all the exhibits filed with the court in any given case, but represent only exhibits that could be stored in filing drawers. The overwhelming majority of the exhibits that have survived in this series are photographs, but some maps, newspaper clippings, 16mm movie film, and other documents are included as well. Furthermore, this series does not include all of the exhibit files that would have been created by the court during the series date span.

**ARRANGEMENT:** This series is arranged by case type (i.e. civil, criminal, and probate cases), thereunder numerically by case number.

**RELATED RECORDS:** Lists of exhibits and other background from the court cases to which the exhibits in this series are attached can be found in several Third District Court case files series, including civil case files in Series 1622, CIVIL CASE FILES. Criminal case files make up Series 1471, CRIMINAL CASE FILES. Probate case files are found in Series 1621, PROBATE CASE FILES.

**PROCESSING NOTE:** This series was kept because of the intrinsic value of the items it contains. It was processed by Alan Barnett in May 2004. The processor provided a brief description of the contents of each folder and a date for photograph exhibits where possible. The dates provided are based on information on the photographs or in the court case. If no

definite date could be discerned, the date the photo was filed as an exhibit with the court has been noted preceded by the term "ca." In designating locations of scenes in photos the state has been noted only for locations outside of Salt Lake County.

**PREFERRED CITATION:** Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.

**GAPS:** Despite the fact that court exhibits do not typically have a permanent retention, the exhibits in this series survived apparently by chance and now have clear historical value. Because this series survived by chance rather than thru intentional adherence a permanent retentions schedule, it contains numerous gaps. While many court cases heard by the Third District Court never had exhibits attached to them, this series represents only exhibits that could fit conveniently in a file drawer and many cases that did have such exhibits are not represented in this series. The series could thus be considered a kind of sampling of court exhibits.
